# A78 Ardrossan, Saltcoats and Stevenston Bypass

Opened on Tuesday 21st Dec 2004 by Nicol Stephen MSP Minister for Transport

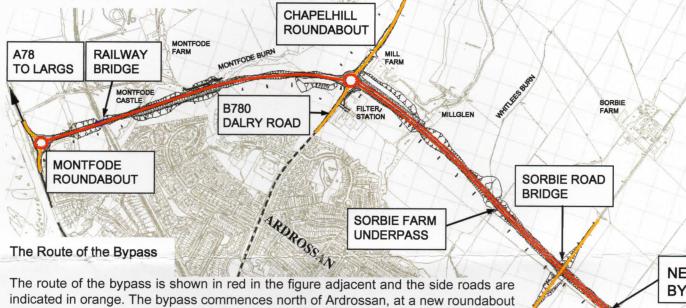

### Background to the Project

The A78 Trunk Road is the major route connecting Ayrshire and the southwest with the Greenock and Port Glasgow area to the north. In 1999 the Scottish Executive carried out the Strategic Roads Review and the Ardrossan, Saltcoats and Stevenston Bypass, better known as the Three Towns Bypass was chosen as one of five schemes to be taken forward.

adjacent to the access to Montfode Farm. From there the route travels around the northern edge of Ardrossan to a second roundabout on the realigned B780 Ardrossan-Dalry Road at Chapelhill.

The new road continues eastwards between Mill Farm and the former Mill Glen Filter Station, and then passes under the realigned Sorbie Road at a point some 400 metres to the north of the housing at Whitlees.

A third roundabout is provided to connect the bypass to the realigned C4 Saltcoats-Dalry Road just north of Sharphill Cottage. The new road then continues eastward towards the Hayocks area of Stevenston, passing beneath Greenhead Road and Hayocks Road before connecting to the modified roundabout at Pennyburn at the junction of the A78 and A738.

Castlehill Road is realigned to meet Hayocks Road just north of the new bridge over the bypass.

No access to the bypass is available other than by means of the four roundabouts described and illustrated. Four bridges form part of the scheme; one railway bridge at Montfode where the road passes beneath the Largs/Glasgow railway line and three road bridges to carry side roads over the bypass at Sorbie, Greenhead and Havocks Roads. Agricultural underpasses are provided at Sorbie, Corsankell and Knockrivock farms.

#### **Environmental Impacts**

Whilst the design fully recognises and addresses the many engineering and environmental constraints, it was important when seeking to solve existing and predicted traffic related problems within the Three Towns, that the proposals minimised any potential adverse environmental effects.

The bypass design includes extensive mitigation measures which not only reduce the effects caused by the road but, where possible, improves environmental quality along the route.

### **Procurement**

Design and Build Competitions were held for the Design, Construction and Maintenance of the A78 Ardrossan, Saltcoats and Stevenston Bypass and the Montfode Railway Bridge. Tenderers were asked to present their proposals to take forward the scheme developed by Scott Wilson Scotland Limited. Tenderers were also required to develop specific proposals for Design and Construction in line with the Statutory Orders and Environmental Statement for the scheme together with specific Employer's Requirements, whilst keeping within a specified land corridor.

Tenderers were allowed the freedom to develop proposals to suit their methods of working whilst ensuring that commitments to third parties were respected, as embodied in the contract documents. Tenderers were able to submit their own programme for the works, up to a maximum time set by the Scottish Executive.

The bypass contract was awarded to AWG Mowlem (A78) Joint Venture in June 2003 and the Montfode Railway Bridge contract was awarded to Mowlem plc in March 2004. AWG has recently reverted to its former name of Morrison Construction Services Ltd.

'irene.dryburgh@morrisonplc.com' To: Subject: Official Opening of the A78 Ardrossan

Thank you for the invitation to attend the above ceremony on 21 December 2004 at 11.00am. I will be delighted to attend.

Regards Jim McCafferty

The Scottish Executive and the **Directors of Morrison Mowlem Joint Venture** request the pleasure of your company at the Official Opening Ceremony of the A78 Ardrossan, Saltcoats and Stevenston Bypass by Nicol Stephen MSP, Minister for Transport, on Tuesday 21 December 2004 at 11.00 am

# **A78 ARDROSSAN, SALTCOATS AND STEVENSTON BYPASS**

## **OPENING CEREMONY – TUESDAY 21 DECEMBER 2004**

# **PROGRAMME**

10.30 - 10.50am

Guests assemble at the Seamill Hydro where there is ample parking. Coffee will be served.

11.00am

The Minister for Transport, Mr Nicol Stephen MSP, arrives at Seamill Hydro and is met by Mr John Howison, Chief Road Engineer at the Scottish Executive and Mrs Angela Dunbar, MBE.JP, Deputy Lord Lieutenant of Ayrshire and Arran.

Mr Howison then introduces the principal quests to Mr Stephen.

11.10am

The Minister and guests board the coach and travel to the site.

11.30am

Mr Clay welcomes guests and invites the Reverend McKay to bless the road and future travellers.

Mr Tydeman invites Mr Stephen to give his address and open the new road.

Mr Hunter thanks the Minister.

12.00pm

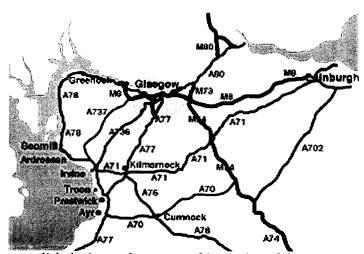

Minister and guests board the coach and travel along the new road to the new Pennyburn Roundabout before returning to the Seamill Hydro for lunch.

## **DIRECTIONS**

click the image for a zoomed in version of the map

## **Directions from England**

Join the A74 from the M6 then follow onto the M74.

Exit the M74 at junction 8 following the A71 th Kilmarnock and then Irvine.

Take the A78 at Irvine and follow to Stevenston through Saltcoats and Ardrossan.

Seamill Hydro is situated an the A78 about 1/2 mile into Seamill on the left handside.

# **Directions**

Follow M8 to Glasgow Airport taking the turning immediately afterwards (junction 28a) Follow directions for Beith/Irvine - A737, at Beith roundabout follow A737 to Dalry (first exit). At Dalry, follow directions for West Kilbride (left at traffic lights; first right; second left) Arriving at West Kilbride, take right turn through village until t-junction at bottom of hill. Turn left at t-junction. Seamill Hydro is situated on the A78 about 600 yards from turning on right hand side.

### **Directions from Prestwick Airport**

Turn right onto A79 on leaving airport terminal. At Monkton Roundabout, follow A78 to Greenock keep on A78 past Irvine Stevenston, Saltcoats and Ardrossan keep following the A78. Seamill Hydro is on situated on the left hand side as you enter the village of Seamill. Journey time from the Airport should be around 30 minutes.

### Directions from Kilmarnock

A71 Kilmarnock - Irvine at Irvine follow directions for Greenock A78.
