The Saltire Society was founded in 1936 by a group of people who were keen to see Scotland restored to its proper position as a cultural entity. The Society aims to foster and enrich the cultural heritage of Scotland in all its aspects. It looks to the future as well as to the past encouraging creativity as a living element of European civilisation. It encourages the study and appreciation of arts & sciences and presents annual awards for civil engineering, planning, literature, housing design and science.
