### Synopsis

Andrew W Aikman is a Technical Director responsible for the Project Management and Building Structures Sections based in Edinburgh, Scotland. His responsibilities include the implementation of a variety of developments including public sector and development projects for private sector clients.

He has gained extensive experience in the following specialist activities:

- programme management
- change management
- design management
- Value Management
- Risk Management
- quality management
- Design Management of multi-disciplinary teams

He has gained broad experience in the field of Project Management with Employers Agent responsibility for projects under Design & Build and Traditional procurement routes, with particular experience in the Defence and Prison Sectors.

He was the Co-ordinating Project Manager for the provision of Project Management services to the MoD through the Defence Estates Scotland Business Unit Partnering Agreement for projects throughout Scotland between 1999 - 2006.

He is a recognised PM specialist and is a member of the firm's PM Discipline Development Group.

He has gained extensive experience in the field of Structural Engineering under Design and Construct and Traditional procurement routes, with particular experience in the Commercial, Retail, Leisure, Defence and Public Sectors.

He has been appointed as an Expert Witness in relation to Structural Engineering on a number of recent court actions.
